📍 Brisbane, QLD

Hello World! I am a self-taught developer seeking an internship or occupation in the Brisbane region. I'm currently traversing the perpetual rabbit hole that is **Computer Science** and all its many fields, always seeking additional knowledge of that which interests me and that which could prove beneficial to your business. I am especially interested in the field of **Cyber Security** with a passion for **pentesting** servers in a home lab environment, CTF challenges, and network analysis using tools like **Wireshark**.

I have recently completed a **Diploma of Information Technology (Advanced Networking and Cloud Engineering)** at **TAFE Queensland**. In addition to industry certifications, the Cisco **CCNA** and **MS-102** (365 Administrator) are next on my horizon.

For a more detailed overview, please check out my [website resume](#).
